are not recommended as a remedy "for all the  
 ills that flesh is heir to," but in affections of the  
 liver, and in all Bilious Complaints, Dyspepsia,  
 and Sick Headache, or diseases of that  
 character, they stand without a rival.

FOR FREE DISTRIBUTION.

IT TREATS OF HEALTH, HYGIENE, and Physi-  
 cal Culture, and is a complete encyclopedia of  
 information for invalids and those who suffer from  
 Nervous, Exhausting, and Bilious Diseases. Every  
 subject that bears upon health and human happiness,  
 receives attention in this Review. It contains a  
 full and complete list of all the medical and  
 surgical remedies now in use, and is a valuable  
 guide to all who are in need of medical advice.

The subject of Invalids, and the questions of  
 invalidism, are of such importance to the  
 human race, that no one should be without a  
 copy of this Review.

And others who suffer from Nervous and Physical  
 Debility, Loss of Sleep, Nervous Exhaustion,  
 and the many physical consequences of early  
 indiscretion, are especially benefited by its  
 contents.

The ELECTRIC REVIEW exposes the unscientific  
 theories of the medical profession, and points out  
 the only safe, reliable, and effective way to  
 restore health and vigor.

## The Intelligencer.

Gladstone.

As a public speaker and parliamentary  
 debater he has no equal in England since  
 the days of Fox and Pitt, except perhaps  
 Brougham. He combines in no one else  
 the fervid eloquence, a copious and inex-

haustable command of language, mar-  
 velous knowledge, a ready and retentive  
 memory, and great varied powers of  
 reasoning. He has, too, a moral force to  
 which Brougham could lay no claim, and  
 which is probably more effective than all  
 the latter's power of sarcasm and invec-

tive. But besides this he is unquestion-  
 ably the greatest financier of the day, his  
 legislative achievements and his position as  
 any other statesman; he is a great adminis-

trator and a deep political thinker. He  
 is also eminently a political leader, not  
 a party leader, for in that capacity he  
 has been the surprise of the world.

Mr. Gladstone's political position is  
 a leader who can arouse the popular con-  
 science and guide popular opinion. Many  
 defects are joined to all this great-  
 ness; but what adds lustre to it is that  
 these defects are only intellectual. Un-

like many great men, we find in him no  
 signs to apologize for or to conceal. Not  
 only his private life is stainless, but his  
 deep religious nature and high moral  
 convictions have had such influence that  
 his life has been justly remarked, and he  
 is perceived as the standard of public

life and political morality in England.  
 His faults are the faults of an aspi-  
 ring nature struggling for the right, but not  
 always perceiving the complex character  
 of the political problems and the tenden-

cy of popular feeling, and at times doing  
 too little justice to the conduct and  
 motives of opponents whose characters  
 are unlike his own, and the honesty of  
 whose opinions he cannot perceive.

Many of the limitations of his mind and  
 many of his defects as a practical states-  
 man, as well as much of his unpopularity,  
 grow out of the fact that like Burke,  
 like Romilly, and like two of his con-

temporaries, Mr. Cobden and Mr. Sumner,  
 he has little or no sense of humor. There is no sign of it either  
 in his speeches or writings. The lack of this  
 quality often prevents his seeing the dis-

proportion of things and events, and his  
 judgment is often the result of the appropri-  
 ateness of time and place for much of what he  
 says and does. His intense earnestness of  
 nature drives out of his mind everything  
 but the great cause he has in hand; and  
 he is often a disorganizer of time and  
 opportunity and with a prolixity which  
 injures rather than advances what he  
 has so much at heart.

**HOUSEHOLD KNOWLEDGE.**

NEW LINEN may be embroidered more  
 easily by rubbing it over with fine white  
 soap; it prevents the threads from crack-

ing.

**GRANAM BREAD**—One pint of sour milk  
 one egg, one small tablespoonful of soda,  
 one-half cup molasses, one quart Graham  
 flour; mix well together; bake one hour.

**PICKLED MUTTON HAM**—Three gallons  
 of soft water, one pound of coarse sugar,  
 two ounces of saltpetre, three pounds of  
 common salt. Boil the water and sugar  
 and when cold pour over the meat. In two  
 or three hours the ham will be excellent  
 for baking or boiling. It may be smoked  
 if preferred.

**TO SOFTEN PUTTY**—Slack three pounds of  
 stone quicklime in water, then add one  
 pound of pearlash and make the whole  
 about the consistency of paint. Apply it  
 to both sides of the glass, and let it remain  
 for twelve hours, when the putty will be  
 so softened that the glass may be easily  
 taken out of the frame.

**HOW TO MAKE TEA GO FURTHER**—A  
 method has been discovered for making  
 more than the usual quantity of tea from  
 any given quantity of the leaf. The whole  
 secret consists of steaming the leaf before  
 steeping. By this process it is said  
 fourteen pints of good quality may be  
 brewed from one ounce of tea.

**PUDING**—An excellent apple pudding  
 can be made from the remains of a rice  
 pudding. Arrange well-sweetened and  
 flavored apple sauce in alternate layers  
 with cold rice pudding; add a little butter  
 and sugar, sift sugar over and brown in  
 oven to heat through and brown on top.  
 Any sort of flavoring may be used for  
 this pudding.

**TO BOIL ONIONS**—Some years ago I  
 read in an English journal a contribution  
 from Mr. Frank Buckland, where he stated  
 that after mental fatigue and occasional  
 depression he was greatly benefited by  
 eating onions at dinner. How soporific  
 or sleep-inducing the onion, the much de-

served vegetable, is, I am not prepared to  
 state, but I know that many persons  
 who are troubled with sleeplessness and  
 depression after the dinner hour find relief  
 in it. If properly boiled so as to get the  
 tang out of them, the onion is a most de-

licious vegetable. To every quart of  
 onions a quart of cold water, with a half  
 teaspoonful of salt. Boil not too fast.  
 Drain in colander thoroughly and allow to  
 get cold. Make a sauce with a  
 tablespoonful of butter, the same of flour,  
 and one-half pint of milk; rub butter and  
 flour perfectly together, with pinch of  
 black pepper. Boil milk which has been  
 flour and butter, and stir all the time to  
 keep smooth. Put onions in sauce  
 and let them heat until the same boils.  
 Ought to be served rather dry.

 the old deacon, and astonished him by  
 whispering in his ear: "That's about the  
 worst pot I ever tasted."

A MAN gets into trouble by marrying  
 two wives. If he marries only one he  
 may have trouble; but if he marries two  
 he is sure to have trouble. —Harvard

On the Emperor William's birthday  
 congratulations flocked in as thick as the  
 cheers when a ball player makes a tally on  
 curved pitching. It means something now-  
 days when a king scores another year.—  
 Rochester Express.

A Boston lawyer told another lawyer,  
 who asked him a question that he usually  
 received pay for his advice. "Then,"  
 said lawyer No. 1, extending fifty cents,  
 "tell me all you know and give me back  
 the change." —Albany Law Journal.

JOSEPH COOK calls Niagara Falls a "dread-  
 ful roar." He has not yet interpreted a  
 term to apply to the Niagara harkman,  
 whose roar is of more recent date. Noth-  
 ing less than a six-syllabled word, with  
 sharp corners and jagged edges, will do  
 justice.

A man fell upon in Connecticut fished  
 a rich old man out of the mill pond and  
 received the offer of 25 cents from the re-  
 spected miser. "O, that's too much!" ex-

claimed he; "I can't take it!" And he  
 handed back 21 cents, saying, calmly, as he  
 pocketed four cents, "That's about right!"

**Bond Purchases.**

PALATABLE MEDICINE—Ayer's Cherry  
 Pectoral is a honeyed syrup of relief; it  
 soothes the inflamed membrane of the  
 throat, and its Sarsaparilla is a nectar  
 that imparts vigor to life, restores the  
 health and expels disease.—Waterford (Pa.)  
 Advertiser.

FOR UPWARDS OF THIRTY YEARS Mrs.  
 Winslow's Soothing Syrup has been used  
 for children. It corrects acidity of the  
 stomach, relieves wind colic, regulates the  
 bowels, cures dysentery and diarrhoea,  
 whether arising from teething or other  
 causes. An old and well-tried remedy,  
 25 cents a bottle.

WASHINGTON, D. C., Jan. 16, 1880.  
 H. H. WALKER & CO.—DEAR SIR:—I  
 write to you after having taken the  
 Sarsaparilla and finding them all that is  
 claimed for them in your circular. I cheer-  
 fully recommend them to the best Pills in the  
 market. JOSEPH FRATHER,

409 M. Street, Washington, D. C.

Dr. J. C. Lewis, of Fulton, Ark., writes:  
 "One year ago I was taken with a  
 cold, which I treated with the Sarsaparilla  
 Pills that I was induced to use. They  
 never did me more good than they have  
 done in my case. After a practice of  
 a quarter of a century, I proclaim them  
 the best medicine ever used."

WHAT other preparations fail to do,  
 Hall's Hair Restorer surely accomplishes.  
 It restores the hair and especially restores  
 its color when gray and faded. As a  
 dressing it is unsurpassed, making the hair  
 moist, soft and glossy. The most economi-  
 cal preparation ever offered, its effects re-  
 main a long time, and those who have  
 once made a trial of it will never use any  
 other.—Advertiser and Union, Fredonia,  
 N. Y.
